ACADEMY OF DENTISTRY TORONTO

OUR ACADEMY

The ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been functioning continuously since 1889. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:

1. The Annual WINTER CLINIC.
 2. After hours EMERGENCY TREATMENT service for the public.
 3. The Annual INFORMATION BOOK, a directory of dental organizations.
 4. The LADIES' AUXILIARY, which provides support for worthy dental projects, and various fellowship activities.
 5. PUBLIC RELATIONS, a secretary to answer the public's queries and complaints.
 6. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
 7. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
 8. DENTAL MEETINGS with excellent programs and clinicians.
 9. Assistance in formation of new STUDY GROUPS.
 10. HONOURARY MEMBERSHIP to recognize outstanding dentists.
 11. ARCHIVES for historical dental information.
 12. Fellowship activities such as the Annual GOLF TOURNAMENT and CURLING BONSPIEL.
 13. MEDIATION services for the public.
 14. COMMUNICATION with dental auxiliary organizations.
 15. LIAISON with local government and other community groups.
 16. Provides an ASSOCIATE PLACEMENT service.
- THIS IS OUR ACADEMY.
KEEP IT STRONG.
SUPPORT IT, ENJOY IT.

PRESIDENT'S MESSAGE

STEWART L. SIGESMUND
B.A., D.D.S., F.A.G.D.

On behalf of the Toronto Academy of Dentistry, may I welcome you to our 49th Annual Winter Clinic, the largest single day annual Convention in Canada.

We at the Academy are extremely proud of support extended by all facets of the dental health profession at last years Winter Clinic.

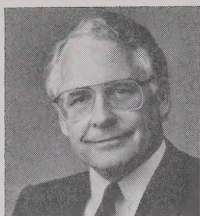

Our move to the Toronto Convention Centre was a rousing success. We set new records in numbers of display booths and in attendance by dentists, hygenists and dental assistants.

The Academy endeavours to keep you informed with the ever changing world about us, not only in the field of dentistry but in matters of interest in our every day lives.

I would like to offer my thanks to Dr. Don Stewart and his Winter Clinic committee and Mrs. Raisyl Wagman and Mrs. Nancy Self for providing us with another first class Winter Clinic.

Welcome!

**CFDSS BASE BORDEN WILL
DISPLAY THEIR MOBILE
DENTAL VAN IN
EXHIBIT HALL A.**

CHAIRMAN'S
WELCOME
DONALD A. STEWART
D.D.S.

On behalf of the Toronto Academy of Dentistry, I would like to extend to you an invitation to attend the 49th Annual Winter Clinic. This is the second year our meeting will be held at the Metro Toronto Convention Centre and based on last year's success the committee is looking forward to providing you with an ever more efficient and informative meeting.

The highlights of the clinical program will be:

Ms. Linda Miles – "Dynamic Practice Management"

Dr. David Garber – "Esthetic

Reconstructive Problem Solving in Everyday Practice"

Dr. Alan Drinnan – "Medical Problems in Dental Practice with an Emphasis on Infectious Diseases"

and your luncheon speaker will be Canada's Ambassador to the United Nations Stephen Lewis.

Make a point of setting aside the 20th of November for your attendance at the Winter Clinic. The information that you obtain and the renewed fellowship with your friends and colleagues will benefit you, your staff and your patients.

Come and enjoy your day.

**PRE-REGISTERED DENTISTS
YOUR BADGE IS

WINTER CLINIC
WELCOME MESSAGE
JANET JOHNSON, C.D.A.
PRESIDENT ODN&AA

I extend a warm welcome to the 42nd Annual Winter Clinic, from the Ontario Dental Nurses' and Assistants' Association.

This full day has always been planned with your entire office in mind. Last year the move to the new Metro Toronto Convention Centre was geared to the dental office team approach. It proved to be a very successful and positive move.

Once again all members of your office will be together as a group at the Convention Centre. The Toronto Academy of Dentistry, the

ODHA and the ODN&AA have arranged a full day of education and fellowship.

Please plan to attend what promises to be an interesting and informative day. The ODN&AA Executive will be on hand to meet with our members at 8:30 a.m. I look forward to seeing you on November 20, 1986

**METRO TORONTO
CONVENTION CENTRE
255 FRONT STREET WEST
Street level and underground
parking**

LAURA DEMPSTER
PRESIDENT O.D.H.A.

On behalf of the Ontario Dental Hygienists' Association, it is my pleasure to bring greetings to the 49th Annual Toronto Academy of Dentistry Winter Clinic. This year's Winter Clinic outlines an interesting and informative program offering a variety of clinics, speakers and topics. The difficulty lies in finding the time to see and hear everything of interest!

Our move to the Metropolitan Toronto Convention Centre now allows for a greater integration of the dental profession with the inclusion of all programs under one roof. This new arrangement should promote and enhance the "team" concept in dentistry. Such a philosophy should rightly extend beyond the work place into other facets of dentistry such as continuing education. The sight of the three tiered head table at last year's luncheon helped to dramatize what has been accomplished in bringing members of the dental profession together as a collective group.

The O.D.H.A. would like to offer its continued support and thanks to the Academy of Dentistry, and to all the individuals who have contributed in the organization and planning of this year's Winter Clinic.

I look forward to seeing you there.

DYNAMIC PRACTICE MANAGEMENT LINDA L. MILES, C.S.P.

Synopsis

Linda's Dynamic Practice Management, Course I will discuss:

1. Four Ingredients for Success in Dentistry
2. Eight Phases of Patient Communication
3. Reducing No Shows and Broken Appointments
4. The Pending Notebook – Never Lose a Potential Appointment
5. Purging Records Effectively
6. Staff Meetings That Motivate
7. Recall Systems

Biography

Having begun her career in dentistry in 1961, Linda Miles is now the profession's foremost consultant and speaker on motivation and practice management. She has a diversified background as an author, consultant, former dental assistant, and office administrator.

Founder and President of Dental Dynamics, Inc. (1978), Virginia Beach, Virginia and the Dental Dynamics Institute (1985).

Basic philosophy is "Dentistry can be fun, exciting and rewarding for patients, dentists and staff".

Member of the National Association of Female Executives, and the National Management Association, and International Platform Association.

Member of the National Speaker's Association and winner of the prestigious Certified Speaking Professional award, San Francisco, California (July, 1983).

Guest lecturer for more than 100 dental groups each year, including the Hinman Meeting, the Greater New York Meeting and the ADA in 1985.

Author of many articles on Practice Management, numerous audio and video cassette dental staff training programs and her new book *Practice Dynamics: Building a Winning Team*.

Consulting Editor for *Dental Management Magazine*, *The Press Report* and *The ADA News*.

LIMITED ATTENDANCE CLINIC – THIS LECTURE WILL BE OF BENEFIT TO THE ENTIRE DENTAL TEAM.

ESTHETIC AND
RECONSTRUCTIVE
PROBLEM SOLVING
IN EVERYDAY PRACTICE
DAVID A. GARBER, D.M.D.

Synopsis

Despite the dramatic advances in dental materials and the ability that clinicians now have to restore broken down teeth to cosmetic perfection, there do exist in our everyday practices innumerable clinical situations which cannot be solved by restorative dentistry alone. This exciting program will cover the whole gamut of these problems dealing with everything from the blue gum around ceramometal restorations to the receding gingival margin can be restored to lifelike beauty without compromising the esthetics. A large portion of

the program will deal with analyzing smilelines and will show a host of different methods to restore mutilated smiles or revamp those unesthetic smiles. The dental pontics and the problem of root perforations with pins or posts will also be discussed.

This program is aimed at the generalist and specialist alike and will provide a host of innovative ideas immediately applicable in your office tomorrow. It is an intergrated approach in dentistry which employs the various disciplines of dentistry to make you a more effective practitioner by expanding the scope of care you can offer your patients.

Biography

Dr. Garber received his undergraduate dental education from the University of Witwatersrand in his homeland South Africa. He graduated from the University of Pennsylvania with post doctoral specialty training in both Periodontics and Periodontal Prosthesis. He was formerly Assistant Professor of Form and Function of the Masticatory System at the University of Pennsylvania and also Assistant-Professor in the Department of Restorative Dentistry and Co-Director of Crown and Bridge and Director of the Group Clinic Practice.

Dr. Garber is a member of many dental societies and has authored over 30 articles in dental journals and textbooks. He has lectured extensively in the United States and abroad.

Dr. Garber was awarded the Professor of the Year Award at the University of Pennsylvania.

LUNCHEON SPEAKER MR. STEPHEN LEWIS

Mr. Stephen Lewis was born in Ottawa on 11 November 1937. He is married to Michele Landsberg, author and Globe and Mail columnist, and has three children: Ilana 21, Avi 19, and Jenny 16.

Mr. Lewis received his post-secondary education at the Universities of Toronto and British Columbia. After leaving university, he spent

two years teaching and travelling in Africa. On his return to Canada, he became the first New Democratic Party (NDP) Director of Organization.

In 1963, at the age of 25, Mr. Lewis was elected to the riding of Scarborough West, becoming one of the youngest members ever to sit in the Ontario Legislature. He was re-elected on four successive occasions and, in 1970, he became provincial leader of the NDP. With Mr. Lewis as Leader, the NDP became the Official Opposition in the Ontario Legislature after the 1975 election. He stepped down from the leadership some two years later and resigned his seat in November 1978.

In 1979, Stephen Lewis received an honorary degree, Doctor of Laws, from McMaster University, in 1985 from York and Concordia Universities, and in 1986 from the University of New Brunswick. In 1981, Mr. Lewis was made a Fellow of Ryerson Polytechnical Institute "in recognition of outstanding work in the development of public policy". In 1982, he won the Gordon Sinclair ACTRA Award for "outspoken opinion and integrity" in broadcasting. In 1983, his CBC radio documentaries on the Holocaust Theme in Literature and Film won a special Human Rights award, and was subsequently published in book form.

Until his nomination as Canadian Permanent Representative to the United Nations on October 5, 1984, he was a noted radio and television commentator on issues of public concern and became a prominent arbitrator in the labour relations field.

MEDICAL PROBLEMS IN
DENTAL PRACTICE WITH
AN EMPHASIS ON
INFECTIOUS DISEASES
ALAN J. DRINNAN,
M.D., D.D.S.

Synopsis

There are several medical conditions of importance in dental practice. Some of these diseases may present initially with oral lesions and the dentist may be the first professional counselor whose advice is sought concerning them. Other diseases may require that specific changes be made in normal dental practice routines to avoid any harm befalling the patient and others may represent serious hazards to the health members of the dental team unless special precautions are taken. Examples of this last group are AIDS, Herpes, and Hepatitis and much has been written in recent years concerning

the hazards of these infectious conditions in the dental office.

This presentation will review examples of each of these categories of systemic diseases with a special emphasis being placed on the infectious diseases.

Biography

Dr. Drinnan received his initial education in dentistry at the University of Bristol Dental School, graduating B.D.S. in 1954. After two years of service as a Captain in the British Army in West Germany he returned to Bristol and entered the Bristol Medical School graduating in 1962. He came to the United States during that year and graduated from the State University of New York at Buffalo, D.D.S. in 1964. Dr. Drinnan is a Diplomate of the American Board of Oral Pathology, a Fellow in Dental Surgery of the Royal College of Surgeons of England and has served as President of the American Academy of Oral Pathology 1979-80. Dr. Drinnan is presently Professor and Chairman of the Department of Oral Medicine at Buffalo and is the Chief of the Dental Service at the Buffalo General Hospital. He has served as a Consultant to several agencies including the American Dental Association and the World Health Organization. Dr. Drinnan was a Fulbright Senior Scholar at the University of Melbourne in 1981. He is the co-author of a book, "The Physical Evaluation of the Dental Practitioner".

PUT YOUR SMILE
BACK IN SHAPE
FRANK PULVER,
D.D.S., M.S., F.R.C.D. (C)

Synopsis

An overview of the current treatment modalities that are available to the dentist of the 1980's with respect to the utilization of the acid-etch technique in facial esthetics – will be presented. The topics to be discussed will include reshaping and remoulding of teeth, closure of diastemas, treatment of hypoplasias and tooth discoloration, treatment of carious lesions, both anteriorly and posteriorly, treatment of trauma, and the replacement of missing teeth with resin-bonded prostheses.

Biography

Dr. Pulver obtained his D.D.S. degree from the University of Toronto, Faculty of Dentistry, in 1958, and his Master's of Science in 1962 from the University of Michigan – W.K Kellogg Institute. He became a Fellow of the Royal College of Dentists of Canada in 1967 and is formerly Chief Examiner of Paedodontics for the College. Dr. Pulver holds the following appointments: Assistant Professor Dentistry, Department of Paedodontics, Faculty of Dentistry, University of Toronto, Post-Graduate and Undergraduate Divisions; Active Staff: Mount Sinai Hospital, Dental Department, Toronto; Dental Consultant, Canadian Standards Association, Subcommittee on Protective Hockey Equipment; Representative to The Royal College of Dental Surgeons for the Ontario Society of Paediatric Dentistry.

He is a member of various societies, including Omicron Kappa Upsilon – Honour Dental Society; President, Canada Academy of Paediatric Dentistry; American Academy of Paedodontics (Fellow); Past President, Kenneth A. Easlick Graduate Pedodontic Society – Ann Arbor Michigan; and is General Chairman of the Eleventh Congress of the International Association of Dentistry for Children which will be held in Toronto in June of 1987.

Dr. Pulver has authored many publications and has spoken to dental audiences throughout the world.

SUCCESSFUL
COMPUTERIZED
MARKETING AND
MANAGEMENT OF THE
DENTAL PRACTICE
BARRY K. FREYDBERG,
D.D.S.

Synopsis

Most dentists and office staff use a computer as a means of streamlining paperwork, i.e. automating existing office functions, a view the speaker considers very shortsighted. Dr. Freydberg will demonstrate how the right type of system chosen for your practice can help an office increase production and accelerate practice growth.

Dr. Freydberg will share with you the techniques necessary to recognize software, which is not only well designed, but suitable for your particular needs. He will show that neither the dentist nor his staff need to be computer experts to successfully computerize the management and marketing of their dental practice.

Biography

1968 Graduate of University of Illinois, D.D.S.

Fellow Academy of General Dentistry, F.A.G.D.

Full-time general and multi-specialty group practice in Skokie, Illinois.

Lecured extensively at dental meetings on Successful Computerized Marketing and Management of the Dental Practice including; – ADA Annual Session, Greater New York Dental Meeting, Hinman Meeting, California Dental Association, Three Rivers, and many other societies and study clubs.

Many published articles; Journal of Dental Practice Administration, ADA News, CDS Review, Dental Computer Newsletter. Contributing Author; How to Choose the Right Computer for Your Dental Practice.

CURRENT CONCEPTS IN DENTAL RADIOLOGY

STANLEY L. KOGON,
D.D.S., M.Sc.

Synopsis

Our approach to the application of dental radiography has drastically changed over the last 10 years. Concern about the cumulative effects of low dose x-radiation has resulted in re-evaluation of our use of this diagnostic aid.

This presentation will explore the issue by presenting such topics as prescription and screening radiography, high speed film and current approaches to bite-wing radiography for caries. In all cases the material will be supported by research done at the University of Western Ontario.

Biography

1965 D.D.S., University of Toronto, Faculty of Dentistry

1968-70 Research Fellow, Medical Research Council of Canada

1970 M.Sc. Pathology, University of Western Ontario

HAVING FUN PROMOTING DENTISTRY SAMUEL M. GREEN D.D.S., D.D.P.H., F.R.C.D. (C)

Synopsis

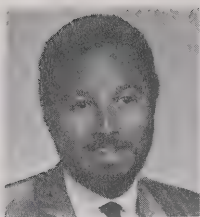

This slide lecture will illustrate some successes in ethically marketing the serious subject of preventative dentistry . . . in a light-hearted manner. It will explain how these programmes and ideas can be incorporated into the private practitioner's setting. Since the early seventies, Dr. Green has been instrumental in creative innovative mass media approaches to increase the public's awareness towards good dental health. This presentation will cover his creations and experiences such as Murphy the Molar; the Tooth Fairy Society of

Canada; Thumbsucker's Anonymous; Smiling Faces with Braces Society of Canada; Smile-a-Thons and others. Included also will be a quick overview of the present Ministry of Health's mandated programmes for all health units which each dentist should be cognizant of.

Biography

Dr. Green is a graduate of the University of Toronto Faculty of Dentistry and is a specialist in dental public health. He is a Fellow of the Royal College of Dentists of Canada and holds the position of Director of Community Dentistry for the municipal governments of Etobicoke, Halton, Peel and York. He is also a dental consultant at the Etobicoke General Hospital. In the past years he has been active on numerous committees including the Marketing Committee of the Ontario Dental Association. He has held the position of president for both the Ontario Society of Public Health Dentists and the Ontario Public Health Association. Dr. Green has received a number of awards, most recently a Recognition Award from the American Dental Association for Community Preventive Dentistry and a Distinguished Service Award from the Association of Ontario Boards of Health.

THE ART OF ACHIEVING
FINANCIAL
INDEPENDENCE
RICHARD CHARLTON

Synopsis

There is no fast or easy way to achieve financial independence. There are, however, a few sound and clearcut principles, which properly applied, will at the very least, ensure an individual some choice about how and when they will retire. Your decision regarding the application of these principles will determine the type of income you will receive when you wish to retire – income from labour, income from charity, or income from capital.

Biography

Richard started his career in the insurance industry with an emphasis on estate planning, before making the transition to financial planning and wealth creation. He is presently a senior account executive with Regal Capital Planners in Oakville, and a member of the President's Advisory Council for the MacKenzie Financial Corporation. He immigrated to Canada in 1973, is married, has four children and a dog and lives in Burlington.

DAVID A. MARINIER,
CORPORAL**

Synopsis

Corporal Marinier will be discussing the extent of the problem of drug diversion by utilizing statistics compiled. He will also discuss "new scams" that have been encountered, the abuser and ways to combat the problem.

Biography

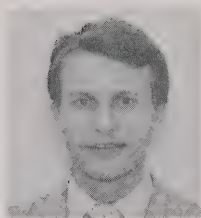

Corporal Marinier has been a member of the Royal Canadian Mounted Police for approximately 16 years. He has been stationed at a variety of detachments, both in British Columbia and Ontario. The majority of his service has been centered around Drug Enforcement.

Corporal Marinier is presently in charge of the Toronto Compliance Unit whose responsibilities include the investigation of persons involved in prescribed drug diversion.

CHEMOTHERAPEUTIC
CONTROL OF DENTAL
CARIES AND
PERIODONTAL DISEASE
TOM E. BALANYK,
D.D.S., D.D.P.H.

Synopsis

Lecture/slide presentation including discussions on:

- 1) the application of antimicrobial dental varnishes in selectively eliminating *Streptococcus mutans* from the mouth;
- 2) the use of flouride and antimicrobial dentifrices, and mouthwashes in:
 - i) promoting incipient caries reinerlization
 - ii) reducing denal plaque mass
 - iii) reducing gingivitis

Biography

Dr. Balanyk received his D.D.S. in 1979 from the University of Toronto and a Diploma in Dental Public Health in 1981. From 1981-1983 he was engaged in full-

time study toward a Master of Science degree, specializing in preventative dentistry; research topic: "Development of Slow-release Intraoral Topical Antimicrobial Dental Varnishes". At present his thesis is in preparation.

Dr. Balanyk has been a clinical and laboratory demonstrator; Faculty of Dentistry, University of Toronto; Dental Advisor, Department of Public Health, City of Toronto; Dental staff, Sunnybrook Medical Centre, City of Toronto Hepatitis B Dental Clinic. From 1985 - present he is; Dental Research Consultant, Med-Check Canada Limited, Clinical research laboratories; Associate in practice of General Dentistry in Mississauga; Dental Research Associate, University of Toronto, Department of Microbiology and Biological Sciences, Faculty of Dentistry and many others. Dr. Balanyk is the author of several published articles as well as the recipient of awards, his most recent being the Royal College of Dental Surgeons on Ontario, Specialty certification in Dental Public Health.

Dr. Balanyk is a semi-professional photographer and member of the Associated Photographers International. He is also an amateur guitarist.

A NEW ERA IN CROWNS

KENNETH S. HEBEL,

BSc., D.D.S., M.S.

Synopsis

Over the past several years new crowns based on new materials and techniques have been introduced aggressively to the dental profession. This presentation will discuss the Cerestore, Dicor and Renaissance crown systems. The differences in tooth preparation and laboratory procedures which vary widely for the three crown systems will be discussed along with some of the advantages and disadvantages of each system.

Biography

Dr. Hebel received a BSc. from the University of Waterloo in 1975, a D.D.S. from the University of Western Ontario in 1979, a Certificate in Prosthodontics from the Eastman Dental Center, Rochester, N.Y. in 1983 and a M.S. from the University of Rochester in 1985.

He has lectured to many societies and professional organizations in Canada and the United States. In 1983 he was the first place winner in the American College of Prosthodontics research competition. Dr. Hebel is currently an Assistant Clinical Professor in Fixed and Removable Prosthodontics at the University of Western Ontario and practises prosthodontics three days per week at University Hospital, London, Ontario.

Let's talk efficacy

Let's talk about clinical proof. "The safety and efficacy profiles make articaine (Ultracaine) a choice anesthetic in dentistry."¹ These words are from the summary of a recent Canadian clinical study by six investigators involving a total of 108 dental treatments in children and adults.

Talk about results! This study proved once again that Ultracaine can deliver a rapid onset of action, deep anesthesia, adequate total duration of action, rapid return of sensitivity, and a high probability of inducing anesthesia with a small injection volume.

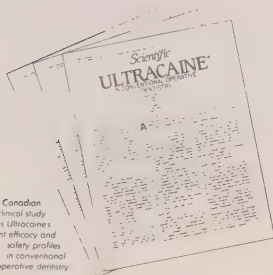

All of this plus a wide margin of safety and very low incidence of side effects.¹

Talk about efficacy and safety. Talk about clinical proof. And you're talking about Ultracaine. A logical choice anesthetic.

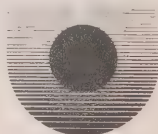

1. Lemay et al. Ultracaine in conventional operative dentistry. *Journal of the Canadian Dental Association* 1984,50(No 9): 703-708

Product monograph available on request.

New Canadian clinical study confirms Ultracaine's excellent efficacy and safety profiles in conventional operative dentistry

CHILD ABUSE AND
NEGLECT:
A COMMUNITY
PROBLEM/ A
COMMUNITY SOLUTION
RON SMITH

Synopsis

Thousands of Canadian children have been victims of physical and sexual abuse and various forms of neglect. This presentation will outline the indicators of abuse and neglect, assess the impact on the victims, define the responsibilities on professionals to report, describe child welfare treatment strategies, and advance a community model of intervention so that the incidence of abuse and neglect might be reduced as much as possible.

Biography

Ron Smith is acting Service Director, Toronto East Branch, Children's Aid Society of Metro Toronto. For the

past 8 years, he was the family service department head in the same branch. Prior to that he was a child welfare supervisor in Halifax and a front-line worker in Vancouver. Mr. Smith has an M.S.W. from U.B.C. (1971).

THE POSTERIOR
OCCLUSAL BITE BLOCK
IN THE CORRECTION
OF ANTERIOR OPEN BITE
DONALD G. WOODSIDE,
D.D.S., F.R.C.D. (C),
D. ORTHO

Synopsis

Many anterior open bite malocclusions are the result of environmental factors which rotate the mandible down and back. The presentation will outline the diagnosis of these problems and a simple form of orthodontic therapy used to obtain the initial reduction in the open bite by rotating the mandible upward and forward. The presentation will be illustrated by reports of case histories using this method and in combination with fixed appliances.

Biography

Dr. Woodside is presently Professor and Chairman of the Department of Orthodontics, University of Toronto. He is a Diplomate of the American Board of Or-

thodontics and a Fellow in the Royal College of Dentists in Canada.

Dr. Woodside has received numerous honors and awards which include: The Milo Hellman Research Award of Special Merit; the George Wellington Grieve Memorial Lecture; the biennial Australian Orthodontic Research Foundation Award; and the Louise Jarabak, University of the Pacific, Northcroft and Strang Memorial Lectures. He has lectured and published extensively worldwide on the subjects to be covered.

HONOURARY LIFE
MEMBERSHIP
ELLIOTT J. SIEGEL
M.D., D.D.S.

The Academy of Dentistry, Toronto is honoured at its Annual Winter Clinic Meeting, 1986, to present for Honourary Life Membership in the Academy Dr. Elliott Siegel.

Dr. Siegel graduated from Westdale Secondary School, Hamilton in 1939. He graduated from the University of Toronto Medical School in 1944 and was in the Canadian Armed Forces Medical Corps in 1944-45. After the war Dr. Siegel entered the Harvard University, Faculty of Dentistry and graduated in 1949. He

worked at Bellevue Hospital in New York from 1949-53. Dr. Siegel settled in Toronto where he practised oral surgery from 1953-1984. He was one of the first trained oral surgeons in the city.

Elliott Siegel might be called "an original caretaker of dentistry". In the 1960's he and Dr. Ralph Singer were instrumental in establishing a group of dentists who attempted to fight for dentistry's survival. At the time he was an avid opponent of capitation. He has always been a strong advocate of maintaining professionalism in dentistry.

In the 1970's Dr. Siegel was the Toronto East Governor to the ODA. He was a member of an RCDS committee that set standards for the administration of anaesthesia in dentistry; in fact, he was the first to set such guidelines. Dr. Siegel firmly believed in having registered nurses in the dental office to assist with patients receiving anaesthesia.

Dr. Siegel has been a special friend and ally to his partner, Dr. Lawrence Gaum, as well as a devoted, fair and honest dentist to his patients. He has always believed in the importance of maintaining a strong position within the office environment.

For years Dr. Siegel was an avid sailor and still has an outstanding collection of antique cars, which has been written up in several magazines. He is married to June and he has three children – Evan, Erica, a dental assistant and David who is pursuing his university studies in athletic psychology.

The dental profession should be proud of a man like Dr. Elliott Siegel. He is a "gentleman and a professional".

NEW FROM 3M...

VALUX™

Beauty+Strength

A new concept in anterior restoratives

Not a macrofill, or a microfill either. "Valux" Composite is a Type II small particle restorative containing some microfill. A combination that gives you the best of both worlds.

Its unique blend of fine and microfine filler is processed through an advanced technique to achieve a filler loading of approximately 78%. And that results in excellent strength, plus a highly polished surface.

We think you'll find "Valux" Composite an ideal combination of strength and esthetics. And we recommend it for use in high-stress applications such as large Class IV's where strength is of primary concern. (For applications requiring the highest degree of polishability, we recommend you choose "Silux" Restorative or veneer "Valux" with "Silux". It is further recommended that both a light cured small particle restorative and a microfill be part of an anterior-restorative armamentarium¹)

Available in 9 shades including a NEW translucent incisal shade to aid in more life-like incisal edge repair.

Many major clinicians already claim it has the best HANDLING CHARACTERISTICS of any restorative they have used.

Specifically formulated to be compatible with 3M "Scotchbond" Light Cured Dental Adhesive.

WHEN WE SAY SERVICE *WE MEAN IT*

Our staff are seasoned sales and technical professionals who work with you to make sure that your individual needs are given close attention. They operate from fourteen service centres across Canada, which means that, in most cases, service is as close as a local telephone call.

We maintain an inventory of a wide range of products

and parts so your downtime is reduced to a minimum and so is back ordering.

The happy group shown above are the people who provide service in Toronto and the surrounding area. Together they combine 170 years of service experience. Put it to work for you – after all, your expensive equipment is no place for amateurs.

Your Dental Support Team.

INTIMACY AND SEXUALITY

Domeena C. Renshaw, M.D.
Professor

*Department of Psychiatry
Loyal University Stritch
School of Medicine*

Intimacy: is a special word for special closeness. There may be as many definitions as there are those who try to define it for themselves, but it always refers to relationships. These range from strangers and enemies to acquaintances, friends, family and lovers. Since hostility demands intense and often close involvement, the dif-

ference between an enemy and a friend may be in quality rather than in kind of relationship, hence the phrase "intimate enemy" to describe marital couples who are bonded by constant conflict. The barriers and the benefits of intimacy will be explored in this workshop with explicit audiovisuals. Those who may be offended may opt not to attend.

Dr. Renshaw presented a workshop at the 1982 Winter Clinic and was a tremendous success.

PAST PRESIDENTS OF THE ACADEMY

The Past Presidents of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of Past Presidents from 1891 to 1986.

1891-92 N. Pearson*	1939-40 Wm. G. Trelford*
1892-93 J.B. Willmott*	1940-41 Edmund T. Guest
1893-94 N. Pearson*	1941-42 Stewart A. MacGregor
1894-95 W.H. Wunder*	1942-43 Lloyd M. Grose*
1895-96 G.S. Martin*	1943-44 Charles McLean*
1896-97 H.E. Eaton*	1944-45 Harold Skilling*
1897-98 A.J. McDonagh*	1945-46 Harold Swales*
1898-99 J.E. Wilkinson*	1946-47 H. Colton Bliss*
1899-1900 J.B. Willmott*	1947-48 F. Harold Shepherd*
1900-01 A.E. Webster*	1948-49 Joseph H. Johnson*
1901-02 F.D. Price*	1949-50 Edgar A. White
1902-03 W.E. Willmott*	1950-51 Earl Bancroft*
1903-04 G.S. Martin*	1951-52 Mark G. Boyes
1904-05 C.E. Pearson*	1952-53 J. Gordon Chalmers*
1905-06 W.G.L. Spaulding*	1953-54 Elmer J. Henderson*
1906-07 J.B. Willmott*	1954-55 W. James Smith*
1907-08 R.C. McLaughlin*	1955-56 J. Bevan King*
1908-09 A.J. McDonagh*	1956-57 Harvey Milburn
1909-10 H.E. Eaton*	1957-58 Robert W. Marshall
1910-11 A.E. Webster*	1958-59 William A. Weir
1911-12 A.D.A. Mason*	1959-60 James A. Bigelow
1912-13 C.A. Kennedy*	1960-61 Vernon A. Herron*
1913-14 W.E. Willmott*	1961-62 Arthur E. Histrop*
1914-15 G.W. Grieve*	1962-63 John H. Mullett
1915-16 F.C. Husband*	1963-64 Robert M. Grainger
1916-17 E.F. Arnold*	1964-65 J.E. Carson McGowan
1917-18 W.B.T. Amy*	1965-66 Murray Cornish
1918-19 J.E. Rhind*	1966-67 Morley G. Hardy
1919-20 R.D. Thornton*	1967-68 Gordon M. Marshall
1920-21 W.H. Coon*	1968-69 Bert J. Levin
1921-22 H.A. McKim*	1969-70 George C. Stirling
1922-23 R. Gordon McLean*	1970-71 Wilfred J. McColeman
1923-24 J.A. Bothwell*	1971-72 Miet A. Kamienski
1924-25 Arthur Day*	1972-73 Don M. McKee
1925-26 W.G.L. Spaulding*	1973-74 Bernard N. Crystal
1926-27 H.G. Robb*	1974-75 William S. MacKenzie
1927-28 R.S. Woollatt*	1975-76 Robert S. McKegney
1928-29 W.B.T. Amy*	1976-77 Ronald S. Anco
1929-30 T.E.C. Butler*	1977-78 Murray Wagman
1930-31 E.C. Veitch*	1978-79 Gordon Perlmutter
1931-32 J.W. McDonald*	1979-80 Robert H. Pick
1932-33 Thomas R. Marshall*	1980-81 Len Shapira
1933-34 Edmund A. Grant*	1981-82 Ronald F. Martin
1934-35 Frank Martin*	1982-83 Ronald Traub

MEDIATIONS COMMITTEE REPORT

Recently, the headlines of a national newspaper read "M.D.'s Policing Themselves — Do Patients Lose?" This same headline could have read Dentists, rather than M.D.'s.

The attitude and expectations of the public continues to change, and so we as dentists must respond in a professional and concerned manner. Dental treatment is seen by some in terms of guarantees and complete cures in the same way a mechanic repairs a defective automobile. We as dentists should not give our patients false expectations and promises, other than that we will do our very best to help them with their problem. Although new materials and techniques are bombarding us every day, we must remember we cannot, and will never be able to defy the laws of physics, nor should our patients believe we can.

The Mediations Committee makes every attempt to review each complaint in an impartial and neutral manner. There are times when the committee feels that a dentist has erred in his professional judgement or performed treatment inadequately. It is usually *poor communication* between the dentist and patient which brings a patient into the complaint process. The dentist may be cautioned by the Committee regarding these shortcomings and in some instances, recommendations are made for fees to be adjusted or complete refunds be given. On the other side, the Committee may find the patient has no basis for a complaint, and tries to explain why the complaint is not realistic and that the dentists has acted in a most professional manner.

Inform before you perform, keep accurate records, take continuing education courses, be honest with yourself and your patient, refer to a specialist when indicated. If we would all follow these guidelines, there would be no cause for concern with the public as to our standard of care and professional ethics.

The members of the Mediations Committee and the office staff are to be commended for their untiring efforts on your behalf and I, as Chairman, extend a sincere THANK YOU for their contributions in this most important public relations position.

Gilbert Chapnick, D.D.S.
Chairman, Mediations Committee

WHAT WILL HAPPEN TO YOUR OFFICE IF YOU ARE SICK OR DISABLED? ACADEMY OF DENTISTRY MUTUAL AID PLAN

This is a group of dentists who will help a member of the group at a time of distress. Ideally, the group will number about twenty, but the number fluctuates as people join and leave. If you are a member of this group, and are unfortunate enough to be unable to practise because of illness or accident, the members of the group will take turns in operating your practice, with your auxiliaries, to a maximum of four days per week, for a number of weeks. This will provide service for your patients in case of emergencies, completion of treatment in progress and maintain the flow of recall patients.

Some of the benefits are, maintaining service availability to your clientele and employment for your auxiliaries as well as preventing the formation of a huge backlog of patients waiting for your return. If it becomes necessary for a practice to be sold, the plan can maintain the viability of the practice until the sale can be completed. The other members of the plan will come to your office one day at a time, on a rotating schedule. If the group numbers 20, the remaining 19 dentists would be responsible for about one day each, every five weeks for each disabled dentist. Fees are charged in the usual way at the stricken dentist's office, and the contributing dentist does not receive compensation.

The plan has been available for several years and has worked well to date for the stricken dentist. You might want to ask a friend or two to consider joining, or perhaps start a whole new group. A set of by-laws has been adopted, but they can be changed if the need arises.

Further details and a copy of the by-laws are available at the Academy office — 967-5649 or by calling Berril Garshowitz, 229 Yonge Street, Ste. 213A, Toronto M5B 1N9, telephone 368-3375.

UNITED WAY REPORT

The United Way has in the past two years adopted new campaign tactics. It has dropped its door to door canvas and direct approach to the professional groups, and instead has adopted what it believes will prove to be a successful direct mailing approach.

After a decrease of 20% in 1984, 1985 levels were as before. This year there will be three mailings and a follow up telephone blitz.

I'm sure we as a group and as individuals will do all that we can to make the 1986 campaign especially successful.

Jerry Weisberg, D.D.S.
Chairperson, Dental Division
United Way Campaign

ASSOCIATE PLACEMENT SERVICE

The Associate Placement Service continues to be an important part of the Academy's function in the Metropolitan Toronto area.

At the present time there are more dentists seeking placements than there are vacancies. We urge all those who require associates to call the Academy office with their requirements.

To facilitate the Placement Service, we would ask that you inform the Academy office once your requirements have been met.

regarding employment or full or part-time
assistants.

SCRAP AMALGAM DRIVE

The Ladies' Auxiliary of the Academy of Dentistry will collect scrap Amalgam and scrap gold in February, 1987. If you have not been contacted and you wish to contribute to this worthy cause, please call. Anyone from out of town attending the Winter Clinic and who wishes to contribute may bring their contributions with them.

EMERGENCY SERVICE REPORT

I would like to commend all the members of our emergency team for a job well done. The emergency

program has run very well this past year due to their efforts.

The service is meeting the needs of our patients and **YOU**, our referring dentist.

Busyness is always a concern with our service and I urge you to place our number with your answering service or on your answering machine.

OUR HOURS: Monday - Friday

4:00 p.m. - 1:00 a.m.

Saturday, Sunday and Holidays

9:00 a.m. - 1:00 a.m.

TELEPHONE: 924-8041

During daytime hours, the Academy office (967-5649) will refer patients to dentists who accept new patients and/or will try to see them on short notice.

Aldo Boccia, B.Sc., D.D.S.

Jerry Weisberg, D.D.S.

Chairmen, Emergency Service

Businesskeeping for Dentists.

A timely new concept from Safeguard.

Today the information needed to manage a dental practice often goes beyond book-keeping and record keeping. It can involve planning, forecasting, playing "what if" games and developing other practice management information. Safeguard views all of these activities as Businesskeeping.

To cover these aspects of your practice, Safeguard offers computer systems as well as several specialized manual systems.

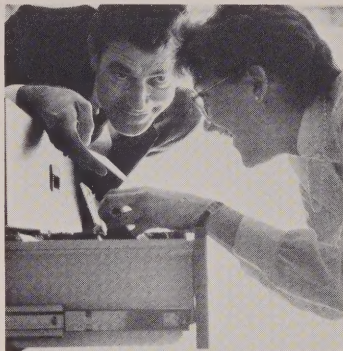

Safeguard's proven "one writing" accounting systems provide increased efficiency, accuracy and control, on a very cost effective basis — thereby enhancing practice management.

"Safeguard Practice Perfect" is the in-house computer system for dental practice management.

We also offer three Color Coded Filing Systems each specifically designed to insure quick, easy and accurate retrieval of vital client information — thereby improving efficiency as well as increasing patient flow.

Across Canada, Safeguard is the Single Source for information used by 65,000 Source information systems over small

businesses and professionals to make sound management decisions.

We offer Total Service through a unique network of more than 100 Safeguard Distributors and Service Representatives.

If you would like to know more about Businesskeeping products and services, or other proven practice building ideas, write us on your letterhead — today.
